[illegible]

The diagram consists of a horizontal row of 12 squares. The first 6 squares from the left are shaded gray. The remaining 6 squares are white. A diagonal line is drawn across the entire row, starting from the top-right corner of the 6th square and extending to the bottom-left corner of the 12th square. This line passes through the top-right corner of the 7th square, the bottom-left corner of the 8th square, the top-right corner of the 9th square, the bottom-left corner of the 10th square, and the top-right corner of the 11th square.
